RE-ODO DISINFECTANT & DEODORISER

-  Huge Versatility
-  Water Soluble
-  Hygiene Sensitive

Description:

ProJanta Re-Odo Disinfectant Deodoriser 5L is a versatile disinfectant deodoriser designed to tackle unpleasant smells by targeting the bacteria and fungi that cause them. It helps neutralise odours effectively, making it suitable for a wide range of hygiene-sensitive and high-traffic areas. Ideal for use in washrooms, on floors, toilets, drains and cisterns, it can also be used on waste bins, rubbish carts, chutes, carpets and entrance matting. Its suitability for air sanitising makes it a practical choice for hotels, nightclubs, public buildings, care environments, airports and retail spaces. Supplied as a blue, sweet-smelling liquid that is fully water miscible, it is pleasant to use and described as not burning the skin.

Useful Information:

Product Code:	1216
Product Colour:	Blue
Product Fragrance:	Sweet
pH Level:	6 – 7.5

Directions:

Re-Odo Disinfectant Deodoriser should be diluted at a rate of 1:30 with clean water, using either hot or cold water, for general deodorising and disinfecting applications.

Apply the diluted solution by spray bottle or with a bucket and hand applicator to washrooms, floors, toilets, drains, cisterns, waste bins, rubbish carts, chutes, carpets and entrance matting, ensuring thorough coverage of the affected area. For air freshening or air sanitising applications, the product may be used undiluted or diluted at 1:30 and then sprayed around the affected room as required.

Suitable protective gloves and eye protection should be worn during handling and application. After use, keep the container tightly closed and store in a cool, well-ventilated area.
